Print these pages on cardstock, laminate, and cut cards out. You will need 55 counters all the same size and color; good ones include plastic counters, flat gemstones, or small wooden objects as long as you have 55 of the same kind.

To use: show the child how to put out the cards across the top of a rug, from 1 to 10. Then let them take one counter at a time and count the correct amount, starting with 1, and continuing across.

To show the difference between odd and even, have the child make sets of two counters, putting the “odd” one underneath the pair(s). For instance:

Name: \_\_\_\_\_

1	2	3	4	5	6	7	8	9	10
○	○ ○	○ ○ ○	○ ○ ○ ○	○ ○ ○ ○ ○	○ ○ ○ ○ ○ ○	○ ○ ○ ○ ○ ○ ○	○ ○ ○ ○ ○ ○ ○ ○	○ ○ ○ ○ ○ ○ ○ ○ ○	○ ○ ○ ○ ○ ○ ○ ○ ○ ○
