Frequently Asked Questions

Q. How much of a discount do training centers receive on the CD-ROMs?

A. If you added up the items on the Primary Training Center CD-ROM individually, it would total \$226. The Elementary CD would total \$430. We are offering a steep discount (\$50 per Primary CD; \$100 per Elementary CD) on bulk purchases of our CD-ROMs for training center use.

Q. Do the students receive any printed materials?

A. The students receive a CD-ROM with Adobe PDF files to print. They will not receive printed materials. Each student is responsible for printing, laminating, and cutting their own materials. No coloring by hand is needed and materials contain full cutting lines for students to follow.

Q. Do we buy new CD-ROMs every year?

A. Yes, each year you would purchase a CD-ROM for each incoming student. This would be comparable to buying or printing/copying materials for each student each year.

Q. Who can use the CD-ROMs?

A. Each student can use their CD-ROM for personal use only. They cannot be shared with anyone else. If a school has paid for the training, the school can purchase a school license from us if they would like to be able to use the CD-ROM for other classrooms. The students will be asked to sign a document agreeing to these terms.

Q. What if the students would like additional materials that you offer?

A. The students will receive a discount code to use on future purchases at our website. This code cannot be shared with others; it is for the students' personal use only.

Q. How do we get the CD-ROMs?

A. The CD-ROMs will be shipped to you Priority Mail, and will include additional CD-ROMs for the training center staff (see price list above).

Q. Why don't the CD-ROMs contain all the files you sell?

A. We found during our experience with the Midwest Montessori Teacher Training Center (our pilot program) that having access to more than just the "core" materials can be distracting for the students during the training. Our CD-ROMs contain the files that are necessary to be completed during training. Students can buy additional PDF files from us at a discount if they desire to have more materials.
